

WELCOME

Galgorm Resort and Spa was originally a gentleman's residence set in County Antrim, which has been sympathetically restored, refurbished and expanded to become a luxurious 75 bedroom, four star deluxe hotel with extensive banqueting facilities, restaurants and spa. It is set in 163 acres of lush parkland within easy reach of Belfast International Airport and is the perfect getaway for business and pleasure. However, what makes guests return time and again is our staff.

Whether your passion lies in guest service, food preparation, or beauty treatments, as a member of staff at Galgorm Resort and Spa, you will be part of a fantastic team who share a passion for delivering the very best in customer service.

Galgorm offers each member of staff, whatever their field of expertise or position, challenging experience as well as excellent training and career development. This includes a formal and comprehensive induction, core skills and compliance training, individual performance feedback and training needs identification, as well as in house tutoring for formal vocational qualifications.
